Profile

An experienced technical engineer and business-oriented frontend developer.
Specialising in TypeScript and Angular technologies and solutions.
Currently learning to be a fullstack developer.

Skills

TypeScript, JavaScript, HTML5, CSS3, Angular, RxJS, SASS, Node.js, Deno, Jest, Testing Library, Git, TailwindCSS, Angular Material, Jira, Drizzle, Prisma, Supabase, Software Architecture.

Experience

Angular Frontend Developer, Transition Technologies Software - 2018 - 2024

Started my working career with this company. With each project I was being assigned to, my responsibilities increased and my **experience and skill set broadened progressively**. Simultaneously I learned to **work alongside many people**.

Angular Frontend Developer, Miquido - 2023 - 2024

Built **accessible user interfaces** whilst **improving Developer Experience** by adding useful tools into the projects. Helped with **maintaining an existing project** by building some additional features requested by the client.

Angular Frontend Developer, Ministerstwo Finansów - 2023

Built a tax calculators for tax payers in Poland. Made from the ground up to be **accessible, fast and precise**. Mostly focused on preventing the calculation errors with **proper structure and tests**.

Angular Frontend Developer, Centralny Ośrodek Informatyki - 2021 - 2022

Built an **advanced filtering system** with many filtering and sorting options. Designed a complex **JSON-based table-building feature**. Simultaneously focused on **improving Developer Experience** of the projects.

Angular Frontend Developer, Centrum e-Zdrowia - 2019 - 2021

Focused on **advancing Developer Experience** which led to **decreased time of developing new features** and shipping time, resulting in **extensive improvement of User Experience**. Built an advanced component system and a form building methodology.

I hereby give consent for my personal data included in the application to be processed for the purposes of the recruitment process and future recruitment processes in accordance with Art. 6 paragraph 1 letter a of the Regulation of the European Parliament and of the Council (EU) 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).

Junior Frontend Developer, Confidential - 2018 - 2019

My first professional project. Whilst learning the ropes of collaborative work, we revitalized a badly managed project. We managed to **greatly increase the performance of the application and improved the developer experience.**

Education

University of Technology Koszalin, MEng Computer Science - 2019 - 2020

University of Technology Koszalin, BEng in Computer Science - 2015 - 2019

Languages

English - C1 Level & Full working proficiency

Polish - Native

Interests

Game Dev - after hours I practice independent game development for my own satisfaction and to learn new skills

Artificial Intelligence - I recently started using coding agents as help with my own programming.

The technology seems interesting, but as of right now it still is lacking and it requires a push into the right direction
